Benefits of uPVC

- Maintenance free and having long life.
- They are not prone to termites as in case of wood which is prone to termites.
- High wind load resistance
- Sound insulation and thermal insulation.
- Air Tightness.
- Water Tightness
- High impact design and compound formula in material to withstand extreme weather condition(Komalit-Z)
- Security(with intellegent multioint locking system.)

KÖMMERLING®

OUR PARTNER

German PVC-U Window & Door Systems

Quality accomplishes the brand.

KÖMMERLING – a name conquering the world.

German KÖMMERLING, established in 1897, is one of the first manufacturers which use the PVC material for window profile production, engaging in supplying the best PVC-U window and door profiles to the world all the time. In each procedure of production, sales, processing, etc., KÖMMERLING has big fame worldwide with its high standard of quality and the mature technology. In Europe, KÖMMERLING has become the pronoun of PVC-U window and door with good quality. This series of KÖMMERLING WINDOW & DOOR SYSTEM PROCESSING HANDBOOK will provide you the systematized technique support.

The series of KÖMMERLING WINDOW & DOOR SYSTEM PROCESSING HANDBOOK (shortened form HANDBOOK) is the direction to window and door assembly procedure, edited by KÖMMERLING, according to the features of KÖMMERLING window systems and profiles. KÖMMERLING does not supply the quality guarantee to the products, which are referred to the HANDBOOK by window fabricators.

KÖMMERLING product systems will continue being renovated and consummated. KÖMMERLING keeps the right to revise any information in the HANDBOOK. Since the distribution of the HANDBOOK has no limited objects, KÖMMERLING will not do the retroactive amendment or version update.

The HANDBOOK is only as the techniques reference to the users of KÖMMERLING products to process KÖMMERLING window systems. KÖMMERLING recommends the users check the data, technique requirement and process procedure in the HANDBOOK according to self-equipment and process condition and do the necessary adjustment.

If there is any improper application of the information in the HANDBOOK, or usage as direction to any non-KÖMMERLING systems, or using improper accessories, the result will be taken by the user self.

We hope the HANDBOOK can provide the assistance to all parties to correctly apply KÖMMERLING profile. If there is any shortage, please contact us.

OUR TEAM IS LOOKING FORWARD TO HAVING A
FRUITFUL WORKING ASSOCIATION WITH YOU!!!!

THANK YOU !!!!!!!
